Plankton and plastic data recording table

Yacht name_____

Please insert the total number of particles counted in each cell, and state the number of holes viewed 1 to 5. For samples with high solids, you may only count 1 x hole under the microscope

date	Time	Latitude	Longitude	Number of holes counted	**Number of plastic particles**			**Number of plastic fibres**			**Zooplankton animals**			**Phytoplankton plants**			**un-identified particles**
d/m/y	24hr			1 to 5	20-200 um	200=1000 um	>1000um	20-200 um	200 – 1000 um	>1000um	20-200 um	200 – 1000 um	>1000um	20-200 um	200 – 1000 um	>1000um	>20um
